This notice describes how we may use and share your health information and explains your privacy rights. The center will use or disclose your information only as described in this notice. **Use and Disclosure of Protected Health Information without Authorization**

The law permits the Catholic Counseling Service to use or disclose your health information with your written consent or authorization for the following purposes:

- **Treatment** – We may use health information about you to provide treatment and service. We may disclose your health information to counselors, supervisors, or administrators at Catholic Counseling Service who are involved in your treatment. Because our counselors are graduate students in training, they are required to share information pertaining to your treatment with their clinical supervisor. In addition, counselors may share relevant details about your treatment during case staffing with our counselors and supervisors.
- **Operations** – We may use your health information for the purposes of operations. For example, your records will be reviewed by the staff to make sure that Catholic Counseling Service is the best place for you to receive treatment. In addition, your records may be reviewed by our Quality Assurance Team to assess the care, outcomes, and quality of service you received. Since our

counselors are in training, supervisors will regularly review and co-sign files; your records may be reviewed during the course of completing evaluations of these counselors.

- Contacting you – We may contact you regarding an appointment, to respond to your contact, to notify you of your discharge, provide information about services that may be of interest to you, or assess satisfaction with ongoing treatment.
- Other circumstances – In addition, we may use or disclose your health information for the following purposes without your consent or authorization:
  1. as required or permitted by law (e.g., cooperation with law enforcement, court officials, or government agencies)
  2. for health oversight activities (e.g., investigations, inspections, accreditation, licensure, etc.)
  3. to avoid serious threat to health or safety
  4. as authorized by worker’s compensation laws or similar programs that provide benefits for work-related injuries or illness
